Benefit HL (short): Wide and Precise Cuts in Wood

Performance Claim Text: Wide and Precise Cuts

(Version) Key RTB: Rounded cutting edge (Curved-Tec) allows for precise and smooth plunge cutting

Specific RTB1: Flat design reduces wobbling for controlled cuts due to direct power transmission

Specific RTB2: Tapered-base body minimises jamming and removes material faster

Specific RTB3: Starlock Snap-In mounting system for fast blade removal and exchange within 3 seconds without having to touch the blade

Material: Softwood

SOL Date: 01.01.2016

Novelty: no

Scope of delivery:

1 ST HCS plunge cut saw blade All 65 APC Wood. For oscillating multitools |

PRODUCT DESCRIPTION

The Starlock All 65 APC blade delivers wide and precise cuts in wood. Its rounded cutting edge (Curved-Tec) allows for precise and smooth plunge cutting. The blade's flat design reduces wobbling to enable a controlled cut due to direct power transfer. The tapered-base body minimises jamming and removes material faster for an accurate cut. This product is intended for plunge cutting in softwood, for cutting door frames to length on the floor and for cutting recesses in furniture components. The Starlock Snap-In mounting system allows fast blade removal and exchange within 3 seconds without having to touch the blade. The mounting system produces the highest power transfer thanks to a 3-dimensional tight-fitting connection between machine and accessory.
