Novelty: no

Scope of delivery:  
25 ST HCS plunge cut saw blade AIZ 32 BSPC Hard Wood. For oscillating multitools |

## PRODUCT DESCRIPTION

The Starlock AIZ 32 BSPC blade delivers clean cuts in hardwood. Its 3-dimensional Japanese tooth configuration consists of sharp ground teeth ideal for tear-free cutting. This tooth arrangement minimises heat development, for making very clean cuts with no ripping or burning. It offers a sturdy mounting system that reduces wobbling and enables precision due to direct power transmission. This product is intended for plunge cutting in hardwood, for cutting recesses in furniture components and for sawing wood panels. The blades rounded cutting edge (Curved-Tec) makes precise and smooth plunge cuts. The Starlock Snap-In mounting system allows fast blade removal and exchange within 3 seconds without having to touch the blade. The mounting system produces the highest power transfer thanks to a 3-dimensional tight-fitting connection between machine and accessory.
