Novelty: no

Scope of delivery:

1 ST HCS plunge cut saw blade PAIZ 32 EPC
Wood. For oscillating multitools |

PRODUCT DESCRIPTION

The Starlock PAIZ 32 EPC blade delivers deep cuts in wood. Its 60 mm length increases the blade's reach for extended cuts. With direct power transmission, the sturdy mounting system reduces wobbling for larger controlled cuts. These special features make this product ideal for deep plunge cuts in softwood,

cutting recesses in furniture components, flush cutting wooden components to length and cutting through solid softwood. A rounded cutting edge (Curved-Tec) makes precise and smooth plunge cutting easy. The Starlock Plus system offers very fast, deep and versatile plunge cuts. Additionally, the Starlock Snap-In feature allows fast blade removal and exchange within 3 seconds without having to touch the blade. The special mounting system produces the highest power transfer thanks to a 3-dimensional tight-fitting connection between machine and accessory.
