Product Features: Material: HCS

Diameter [mm]: 85

Benefit HL (short): Reliable Results in Wood Performance Claim Text: Reliable Results in

Wood

(Version) Key RTB: Pointed segment saw blade design enables reaching into tight corners

Specific RTB1: HCS ideal for woodcutting Specific RTB2: Starlock Snap-In mounting system for fast blade removal and exchange within 3 seconds without having to touch the blade

Specific RTB3: Mounting system produces highest power transfer due to tight-fitting connection between machine and accessory

Material: Softwood SOL Date: 01.01.2016

Novelty: no

Scope of delivery: 1 ST HCS segment saw blade ACZ 85 EC Wood. For oscillating multitools |

PRODUCT DESCRIPTION

The Starlock ACZ 85 EC blade creates reliable cuts in wood. The pointed segment saw blade ends enable

cutting right into tight corners, allowing it consistent performance on wood. The blade material is made of HCS (high carbon steel), which is ideal for woodcutting. This accessory is designed for plunge and flush cuts in solid wood and softwood as well as for cutting plastic such as when trimming pipes to length. The Starlock Snap-In mounting system allows fast blade removal and exchange within 3 seconds without having to touch the blade. The mounting system produces the highest power transfer due to a 3-dimensional tight-fitting connection between machine and accessory.
