PRODUCT DESCRIPTION

Heated Hoodie GHH 12+18V XA XL, The GHH 12+18V XA heated hoodie poses the perfect mid-layer option to counter cold temperatures and bad weather. When combined with a thin wind-resistant and waterproof jacket, it is everything needed to keep warm, whatever the task at hand. The weather is always unpredictable, but with perfect heat distribution thanks to its three heating zones, this hoodie keeps the body core warm all day. Due to three heat levels, powered with Boschs 12 V batteries, long-lasting warmth is always taken care of. The battery adapters integrated port makes charging USB-powered devices a breeze, adding further convenience. The hoodies heating pads are powered by the included GAA 12V-21 charging adapter and 12 V battery from Bosch or, optionally, by the GAA 18V-24 charging adapter and 18 V battery from Bosch (not included). Battery adapter GAA 12V-21 Professional (0 618 800 079); Charger GAL 12V-20 Professional; 1 x battery GBA 12V 2.0Ah (1 600 Z00 02X)
