Categories: Accessories for BOSCH professional, Drilling, Sets

Product Features: Dimensions: PH2
Dimensions: PZ2
Dimensions: T20
Dimensions: T25
Dimensions: T30
Length mm: 50
Length mm: 50
Length mm: 50
Benefit HL (short): Highly Robust Bits
Performance Claim Text: Highly Robust Bits
(Version) Key RTB: Highly robust screwdriver bits from S2 Modified Steel, with extended torsion zone perfect for long-lasting work
Specific RTB1: Drill bit performs high-speed drilling in tiles due to 7-sided asymmetrical diamond-ground cutting edges and 2-flute U-shape
Specific RTB3: Part of the Bosch Pick and Click system; plastic holder click-fits into the Pick and Click Empty Cases M and L
Material: Softwood
Material: Stainless steel
Material: Drywall
Material: Brick
Material: Fibre cement boards
Material: HPL High-pressure laminate
Material: Plastics
Product text, Accessories grey: Pick and Click Ceramic Drill and Screwdriver Bit Pack

Scope of delivery:
5 ST Hex-9 Ceramic 5/6/8mm; Impact Power Bit 50mm PH2, PZ2, T20, T25, T30. For rotary drills/drivers |

PRODUCT DESCRIPTION

The Impact Control Screwdriver Bit is highly robust and ideal for heavy duty applications. The bit features an extended torsion zone that makes it extremely sturdy for long-lasting work, even withstanding the high power of impact drivers. S2 Modified Steel and an optimised heat-treatment process provide extra-tough endurance for high performance, including plant installations and industrial work. The HEX-9 Ceramic Tile Drill Bit performs fast drilling in tiles. High-speed drilling is made possible by its 7-sided asymmetrical diamond-ground cutting edges, which efficiently slice through materials. The 2-flute U-shape design provides effective dust removal, which allows the drill bits to glide through the material quickly for fast results. The bits are part of the Bosch Pick and Click system, which enables individually buildable accessory sets for fully customisable bit collections. Click-fitting slots perfectly secure individually purchased packs for a personalised collection and the easy replacement of old packs. The bits come in a plastic holder that click-fits into the Pick and Click Empty Cases M and L for personalised bit set variations.
