Benefit HL (short): Fast Drilling in Metal  
Performance Claim Text: Fast Drilling in Metal  
(Version) Key RTB: Self-centering tip prevents wandering, making quick and easy drilling starts possible  
Specific RTB1: Increased drilling rate generates less heat and wear  
Specific RTB2: PointTeQ tip design remains sharp and ensures continuous durability  
Specific RTB3: Low risk of breakage due to highly elastic body, black-oxide coated flute; DIN 338, Type N, 135-degree tip  
Material: Steel  
Material: Cast iron  
Material: Metal pipes and profiles  
Material: Non-ferrous metals  
Material: Aluminium  
Material: Plastics  
Material: Metal sandwich

1 ST HSS Twist Drill Bit PointTeQ 18pcs  
ToughBox Set 1 - 10 mm. For rotary drills/drivers |

## PRODUCT DESCRIPTION

The HSS Twist Drill Bit PointTeQ enables fast drilling in metal due to its PointTeQ tip design. Quick and easy drilling starts are possible as the self-centering tip prevents wandering. Because of its increased drilling rate, less heat and wear are generated. The PointTeQ tip design remains sharp and ensures continuous durability. This bit is suitable for drilling clearance and pilot holes in alloyed and non-alloyed steel, non-ferrous metals, cast steel, cast iron and plastics. There is a low risk of breakage, especially for drill bits below 6 mm in diameter as the bit is manufactured to have a highly elastic body. Its black-oxide

coated flute provides fast chip removal. The HSS Twist Drill Bit PointTeQ is manufactured to DIN 338. The drill bit is Type N (flute angle) with a tip of 135 degrees.
