PRODUCT DESCRIPTION

The T 101 AOF Clean for Hard Wood Jigsaw Blade delivers clean curved cuts in wood. Its precision-ground teeth with taper-ground body enable clean results. Moreover, its narrow blade width is optimised for curved cutting. Made from BIM (bi-metal), its fully hardened HSS (high-speed steel) tooth strip is bonded with its highly elastic HCS (high carbon steel) body, making the blade appropriate for cutting hard materials such as laminate flooring. Additionally, a pointed tooth design reduces tear-out. It is equipped with a very fine tooth pitch (1.4 mm) for cutting very thin woodworking materials with 1.5-15 mm thickness.
