PRODUCT DESCRIPTION

The T 1013 AWP Precision for Soft Material Jigsaw Blade delivers precise and clean straight cuts in special materials. Its increased blade thickness prevents bending and provides precise cuts at accurate angles. Additionally, the blades symmetrically sharp-ground serrated knife edge is designed to cut fibre insulation materials with little effort. This HCS (high carbon steel) blade is appropriate for cutting non-abrasive soft materials such as fibre insulation, cardboard, polystyrene, carpet, leather, rubber and many other soft materials. It is equipped with an extra-long length (250 mm) for cutting various pliable materials up to 160 mm thickness. Power tool solution requires much less physical effort than common handheld knives.
