## ROBERT BOSCH POWER TOOLS GMBH JIGSAW BLADE T 1018 AFP. FOR JIGSAWS

**SKU:** 3165140704892

Jigsaw blade T 1018 AFP. For jigsaws

**Categories:** [Accessories for BOSCH professional](#), [Saws](#)

**Product Features:** Type: T 1018 AFP

Milled teeth: no

Ground teeth: no

Pointed teeth: no

TC-tipped: no

RIFF: no

Side set: no

Wavy set: no

Serrated edge: no

Ground teeth and taper ground: no

Rasp: no

Benefit HL (short): Breakproof; Precise, Clean Cuts in Metal-Sandwich

Performance Claim Text: Breakproof in Metal-Sandwich

(Version) Key RTB: Increased blade thickness prevents bending and provides precise cuts at accurate angles

Specific RTB1: Milled, wavy-set teeth are designed for cutting metal-sandwich panels

Specific RTB2: Bi-metal, fully hardened high-speed steel tooth strip and highly elastic carbon steel body reduce risk of breakage

Specific RTB3: Very fine tooth pitch (1.1 mm) and extra-long length (250 mm) for cutting metal-sandwich panels of up to 160 mm thickness

Material: Metal sandwich

5 ST Jigsaw blade T 1018 AFP. For jigsaws |

## PRODUCT DESCRIPTION

The T 1018 AFP Precision for Metal-Sandwich Jigsaw Blade is breakproof when making precise, clean straight cuts in metal. Its increased blade thickness prevents bending and provides precise cuts at accurate angles, while its milled, wavy-set teeth are designed for cutting metal-sandwich panels. Made from BIM (bi-metal), the blade's fully hardened HSS (high-speed steel) tooth strip is bonded with its highly elastic carbon steel body, which reduces the risk of breakage and provides both sufficient hardness and the required flexibility to cut metal-sandwich panels. It is equipped with a very fine tooth pitch (1.1 mm) and extra-long length (250 mm) for cutting metal-sandwich panels of up to 160 mm thickness.
