## PRODUCT DESCRIPTION

Point Laser GPL 5 G, The 5-point laser GPL 5 G Professional stands out with its durable and compact design, making it the ideal choice for laying out 90-degree walls. Its green laser points provide up to four times better visibility than red points. With its rubberised housing and recessed glass, as well as IP65 dust and water jets protection, the GPL 5 G Professional resists tough jobsite conditions. This 5-point laser is transport-ready in no time, thanks to an integrated rotation mount that features strong magnets for fast and secure tool mounting. The GPL 5 G Professional is ideal for room partitioning with 90-degree angles and for transferring points from floor to ceiling. It is very suitable for jobs like plumbing and building frames for drywalls. This 5-point laser also features an easy-to-use interface with a two-position switch: when turned on, it automatically self-levels, when turned off, the pendulum is locked. Pouch; 2 x 1.5 V LR6 battery (AA)
