PRODUCT DESCRIPTION

The SDS max RTec Speed Pointed Chisel is ideal for precision jobs in concrete without any work interruptions and with less jamming than standard pointed chisels. The self-sharpening twisted tip provides a wider material removal footprint, which allows for smooth work. The chisel is intended for use in concrete and brick on applications such as mortising, demolition and adjustment work, in addition to restoring joints and clearing reinforcements. The patented RTec element delivers a higher material removal rate than standard pointed chisels.
