PRODUCT DESCRIPTION

Random Orbit Sander GEX 34-150, The GEX 34-150 Professional is Bosch's robust corded random orbit sander with a high removal rate in the 150-mm category. Constant speed and a high removal rate deliver efficient results even on demanding surfaces. An aluminium bearing flange ensures a long tool lifetime and makes it perfect for tough applications. For using sanding sheets with different hole pattern, the GEX 34-150 is equipped with a multi-hole sanding pad that also leads to a significantly increased dust extraction. This random orbit sander is intended for sanding, in-between sanding, lacquer removal, and

surface finishing on wood, veneer, lacquer, and filler, as well as mineral and acrylic surfaces. It is compatible with the Bosch Click & Clean System. The GEX 34-150 Professional also features a dust box fitted with a built-in Bosch Micro Filter System, a 150 mm sanding pad fitted with a hook-and-loop system for fastening sanding sheets and speed selection.
