PRODUCT DESCRIPTION

The S 422 BF Flexible for Metal Reciprocating Saw Blade is designed for curved cuts with compact saws. It has a recessed body for ultimate curved-cutting capability. Moreover, the BIM (bi-metal) blade is engineered for long lifetime when cutting regular-strength sheet steel. Equipped with a fine tooth pitch (1.8 mm), the reciprocating saw blade cuts sheet metal with a thickness of 1.5 mm to 6 mm. Its short length (100 mm) enables a cutting capacity up to 50 mm, and it is ideal for use with cordless compact saws.
