## PRODUCT DESCRIPTION

The S 522 AF Flexible for Metal Reciprocating Saw Blade is designed for use with compact saws. Its very fine tooth pitch and wavy-set teeth enable effortless smooth cuts in thin material. Moreover, the BIM (bi-metal) blade is engineered for a long lifetime when cutting regular-strength sheet steel. Equipped with a very fine tooth pitch (1 mm), the reciprocating saw blade cuts sheet metal with a thickness of 0.7 mm to 3 mm. Its short length (100 mm) enables a cutting capacity up to 50 mm and it is ideal for use with cordless compact saws.
