PRODUCT DESCRIPTION

The S 610 VF Heavy for Wood and Metal Reciprocating Saw Blade delivers fast straight cuts in wood and metal. Featuring a wide tapered body (22 mm) and extra-thick gauge material (1.6 mm), the blade sustains the ultimate stability needed for demolition applications, enabling controlled cuts without bending. Its vario-tooth design and large gullets remove material efficiently, supporting fast work progress. Made from BIM (bi-metal), the blades fully hardened HSS (high-speed steel) tooth strip is bonded with an elastic HCS (high carbon steel) blade, making it ideal for cutting regular-strength steel components embedded in wood. The blade is equipped with a standard length of 150 mm for a cutting capacity of up to 100 mm.
