PRODUCT DESCRIPTION

The X573 Best for Metal produces an excellent finish on metal surfaces. Its high-quality zirconia alumina abrasive grit removes material with precision for an impressive surface finish. Furthermore, its highly stable XY-cloth ensures durability and steady performances on tough applications. The grit is bonded using fully synthetic resin on XY-cloth for optimal sanding behaviour. It is intended for deburring, blending and welding preparation on carbon steel, mild steel, aluminium, non-ferrous metals and cast iron. It is also ideal for removing discolouration, paint, stock and surface imperfections. X573 Best for Metal for an excellent finish on metal surfaces
