## ROBERT BOSCH POWER TOOLS GMBH SCORING BLADE TOP PRECISION LAMINATED PANEL. FOR VERTICAL PANEL SIZING SAWS

**SKU:** 3165140574693

Scoring blade Top Precision Laminated Panel.  
For vertical panel sizing saws

**Categories:** [Accessories for BOSCH professional, Saws](#)

**Product Features:** Number of teeth: 12+12  
Tooth shape: ES  
Max. rotation speed (RPM): 15900  
Cutting result: 4  
Hook angle °?: 11  
Relief angle °?: 17  
Benefit HL (short): Industrial-Quality Precision for Very demanding applications in Laminated Panels  
Performance Claim Text: Industrial-Quality Precision  
(Version) Key RTB: Ideal for laminated panels coated on one or two sides  
Specific RTB1: Unique extra-hard Microteq teeth (Bosch in-house produced) consist of durable carbide grains and provide high performance  
Specific RTB2: Cleanteq coating reduces residue adhesion to ensure clean results while preventing corrosion and keeping the blade cool  
Specific RTB3: ATB (Alternate Top Bevel) tooth geometry delivers clean cuts in all kinds of wooden materials and laminated panels  
Material: Plastic coated boards  
Material: Laminate flooring  
SOL Date: 28.06.2010  
Novelty: no  
Outer diameter mm: 120  
Bore size mm: 20

Width of cut (b1) mm: 2,8  
Base blade thickness (b2) mm: 3,6  
Width of cut (b1) mm / Base bl. thickness (b2)  
mm: 2.8/3.6

Scope of delivery:  
1 ST Scoring blade Top Precision Laminated  
Panel. For vertical panel sizing saws |

## PRODUCT DESCRIPTION

The Top Precision Best for Laminated Panel Scoring Blade delivers industrial-quality precision for very demanding applications in laminated panels that are coated on one or two sides. Its high performance and quality are strengthened by the blade's unique extra-hard Microteq teeth that are manufactured in-house by Bosch and consist of durable carbide grains. Additionally, the blade's Cleanteq coating reduces the adhesion of such residues as resin and glue to ensure clean results while also preventing corrosion and keeping the blade cool. The adjustable scoring blade is intended for cutting chipboard, panel materials and veneered laminate. The Top Precision Best for Laminated Panel Scoring Blade features ATB (Alternate Top Bevel) tooth geometry, delivering clean cuts in all kinds of wooden materials and laminated panels.
