PRODUCT DESCRIPTION

The Top Precision Best for Laminated Panel Scoring Blade delivers industrial-quality precision for very demanding applications in laminated panels that are coated on one or two sides. Its high performance and quality are strengthened by the blade´s unique extra-hard Microteq teeth that are manufactured in-house by Bosch and consist of durable carbide grains. Additionally, the blade´s Cleanteq coating reduces the adhesion of such residues as resin and glue to ensure clean results while also preventing corrosion and keeping the blade cool. The adjustable scoring blade is intended for cutting chipboard, panel materials and veneered laminate. The Top Precision Best for Laminated Panel Scoring Blade features ATB (Alternate Top Bevel) tooth geometry, delivering clean cuts in all kinds of wooden materials and laminated panels.
