ROBERT BOSCH POWER TOOLS GMBH SDS PLUS FORMWORK AND INSTALLATION DRILL BITS. FOR ROTARY HAMMER DRILLS

SKU: 3165140104159

SDS plus formwork and installation drill bits. For rotary hammer drills

---

Categories: Accessories for BOSCH professional, Drilling

Product Features: Diameter (D) mm: 30,00
Total length (L2) mm: 600
Benefit HL (short): Robust for Formwork
Performance Claim Text: Very Robust for Formwork
(Version) Key RTB: The drill bit and shank end are screw-connected, ensuring a low risk of breakage and keeping operations running smoothly
Specific RTB1: Tapered flute, offset drill bit and shank ends prevent jamming in moist wood and cut through embedded nails
Specific RTB2: Extra-long shank for versatile drilling in multilayer building materials or sandwich materials
Specific RTB3: Made of HSS manufactured to DIN 7490, drill bit tip with chisel edge (118 degrees)
Material: Softwood
Material: Hardwood
Material: Drywall board
Material: Aluminium
Product text, Accessories grey: Total length 600 mm
SOL Date: 19.07.2002
Novelty: no

Scope of delivery:
1 ST SDS plus formwork and installation drill

PRODUCT DESCRIPTION

The Installation Drill Bit is very robust for formwork. Its drill bit and shank end are screw-connected, which ensures a low risk of breakage and improves smooth-running operations. Furthermore, its tapered flute, offset drill bit and shank ends prevent jamming even in moist wood, while maintaining enough power to cut through embedded nails. Equipped with an extra-long shank, the bit delivers versatile drilling in multilayer building materials or sandwich materials, e.g. for building trade (formwork) and for interior fitting work, plumbing, heating and electrical installation. It is suitable for use on formwork, boards, planks, beams, plasterboard, light building materials, insulations and metal, e.g. metal plates, materials sandwiched with steel, aluminium or profile sheet. Made from HSS (high-speed steel), the Installation Drill Bit is manufactured to DIN 7490. It has a drill bit tip with chisel edge of 118 degrees.
