PRODUCT DESCRIPTION

The SDS max Spade Chisel delivers a high material removal rate in masonry and mortar. The self-sharpening spade body is able to retain a uniform thickness throughout its lifetime, resulting in consistently elevated work progress. The chisel is intended for use in brick and concrete for removing roughcasting and layers of dirt. Moreover, it can be used for removing concrete residue from foamwork boards and plaster from walls as well as for breakthroughs in masonry. The SDS max Spade Chisel is self-sharpening and offers a 30%-higher material removal rate than standard chisels.
