## PRODUCT DESCRIPTION

The Standard for Wood Staff Bead Bit delivers a high cutting performance when routing fully rounded edges. Durability and reliable cutting results are achieved by its high-quality tungsten carbide cutters. Furthermore, the bit prevents kickbacks by limiting the thickness of the generated chips. It is intended for work on soft wood and hard solid wood as well as on wood composites. The Standard for Wood Staff Bead Bit is appropriate for producing fully rounded edges on stair treads, windowsills and shelves in one pass. Moreover, the staff bit is ideal for producing nosing and attractive trim.
