**ROBERT BOSCH POWER TOOLS GMBH
STUB DRILL BITS, HSS-R, DIN 1897.
FOR ROTARY DRILLS/DRIVERS**

SKU: 3165140099998

Stub drill bits, HSS-R, DIN 1897. For rotary drills/drivers

Categories: [Accessories for BOSCH professional](#), [Drilling](#)

Product Features: Product text, Accessories

grey: Pack of 10

SOL Date: 19.07.2002

Novelty: no

Diameter (D) mm: 4,10

Working length (L1) mm: 22

Total length (L2) mm: 55

Benefit HL (short): Extra-Short Drill Bit for Drilling in Confined Spaces

Performance Claim Text: For Confined Spaces

(Version) Key RTB: The flute is an ideal working length for most types of tight work

Specific RTB1: For effective drilling in areas with limited clearance, the self-centring split-point tip provides an easy start

Specific RTB2: Manufactured to DIN 1897, drill bit Type N (flute angle) with a 118-degree tip, diameter tolerance h8

Material: Steel sheets

Material: Steel

Material: Metal pipes and profiles

Material: Non-ferrous metals

Material: Aluminium

Material: Plastics

Material: Metal sandwich

Scope of delivery:

1 ST Stub drill bits, HSS-R, DIN 1897. For rotary drills/drivers |

PRODUCT DESCRIPTION

The HSS Stub Drill Bit is an extra-short drill bit for drilling in confined spaces, producing holes in sheet metals and pipes with a thickness of 2-6 mm. It offers a flute with an ideal working length for most types of tight work. An easy start without pre-punching is provided by the self-centring split-point tip, which prevents walking and enables effective drilling in areas with limited clearance. It is suitable for use on structural steel, alloyed metal, non-ferrous metal and plastics. This drill bit has a cylindrical shank system (shank equal to drill bit diameter) and is intended for use in drill stands and drill drivers. The HSS Stub Drill Bit is manufactured to DIN 1897. The drill bit is Type N (flute angle) with a 118-degree tip and a diameter tolerance of h8.
