PRODUCT DESCRIPTION

The Top Precision Best for Laminated Panel Fine Circular Saw Blade offers industrial quality and performs highly demanding applications in fine laminated panels. The blade's Cleanteq coating reduces adhesion of such residues as resin and glue to ensure extra-clean results. Moreover, this coating keeps the blade cool, protecting it against corrosion. This performance is also strengthened by the blade's unique extra-hard Microteq teeth that are manufactured in-house by Bosch and consist of durable carbide grains. Additionally, its Stabilteq Polyurethane-filled anti-vibration slots significantly reduce vibration and noise to improve precision in cutting with ease. The saw blade is perfect for use in chipboard, panel materials and veneered laminate. The Top Precision Best for Laminated Panel Fine Circular Saw Blade features ATB (Alternate Top Bevel) tooth geometry, delivering clean cuts in all kinds of wooden materials and laminated panels.
