PRODUCT DESCRIPTION

The Best for Multi Material Circular Saw Blade offers industrial quality and performs highly demanding applications in a wide range of materials. This blade features unique Extra Hard Microteq teeth that are manufactured in-house by Bosch and consist of durable carbide grains enabling high performance. Cleanteq coating further supports the blade's high quality, reducing adhesion of such residues as resin and glue to ensure extra-clean results. Moreover, this coating keeps the blade cool, protecting it against corrosion. Additionally, it features Stabilteq Polyurethane-filled anti-vibration slots that significantly reduce vibration and noise to make precise cutting easy and comfortable. The saw blade is intended for use in non-ferrous metals, aluminium, plastics, epoxy and wood. The Best for Multi Material Circular Saw Blade features HLTCG (High-Low Triple Chip Ground) teeth, which make the blade robust for working with abrasive materials.
