ROBERT BOSCH POWER TOOLS GMBH WIRE WHEEL 75X1 MM NYLON BRISTLE. FOR ROTARY DRILLS/DRIVERS

SKU: 3165140082150

Wire Wheel 75x1 mm Nylon Bristle. For rotary drills/drivers

Categories: [Accessories for BOSCH professional](#), [Cutting, roughing and brushing](#)

Product Features: Diameter mm: 75

Wire thickness mm: 1,00

Max. speed rpm: 4.500

Brush width mm: 8

Securing: Straight shank

Material: Nylon wire with coated abrasive SiC/grit 80

X-LOCK: no

Benefit HL (short): Fine Finish on Various Materials

Performance Claim Text: Fine Finish on Various Materials

(Version) Key RTB: Aluminium oxide K80-coated nylon bristles adapt perfectly to workpiece's contours

Specific RTB1: Consistent material removal due to the abrasive coating's continuous release of abrasive grain with use

Specific RTB2: Cleaning small surfaces, grooves/edges in metal/PVC/wood; removing annealing colour from welded seams on stainless steel

Specific RTB3: Available in different thicknesses. Thicker wires deliver a coarser yet faster finish; thinner wires for finer results

Material: Steel

Material: Hardwood

Material: Softwood

Material: Plastics

Material: Metal pipes and profiles
Product text, Accessories grey: **Wire wheel - Nylon bristle with aluminium oxide coated abrasive K80**

Product text, Accessories grey: **Suitable for** paint stripping, removing rust, smoothing, matt sanding and cleaning wood, metal and PVC on small surfaces, in grooves or on edges, texturing wood and removing annealing colour from welded seams on stainless steel.

Product text, Accessories grey: Adapts perfectly to the contours of the workpiece, without severely altering the surface.

Product text, Accessories grey: Works at constant material removal rate because abrasive grains are continuously released.

Novelty: no

Scope of delivery:

1 ST Wire Wheel 75x1 mm Nylon Bristle. For rotary drills/drivers |

PRODUCT DESCRIPTION

The Wire Wheel Brush provides a good fine finish on various materials without damaging the surface. It is fitted with aluminium oxide K80-coated nylon bristles that adapt perfectly to the workpiece's contours. Consistent material removal is ensured as the abrasive coating continuously releases abrasive grain with use. This Wire Wheel Brush is suitable for cleaning work on small surfaces, in grooves or edges. It is suitable for removing rust, paint, smoothing, matt sanding and cleaning metal, PVC and wood. Additionally, the brush can be used for texturing wood and removing annealing colour from welded seams on stainless steel. Brush wires are available in different thickness for variable levels of abrasive needs. Thicker wires are more aggressive, producing a coarser yet faster surface finish, while thinner wires deliver finer, smoother surface results.
