**ROBERT BOSCH POWER TOOLS GMBH  
WIRE WHEEL CRIMPED 75X0.2 MM  
BRASS-COATED. FOR ROTARY  
DRILLS/DRIVERS**

**SKU:** 3165140036009

Wire Wheel Crimped 75x0.2 mm brass-coated. For rotary drills/drivers

**Categories:** [Accessories for BOSCH professional](#), [Cutting, roughing and brushing](#)

**Product Features:** Diameter mm: 75

Wire thickness mm: 0,20

Max. speed rpm: 4.500

Brush width mm: 10

Securing: Straight shank

Material: Crimped wire, brass coated

X-LOCK: no

Benefit HL (short): Fine Finish on Metal

Performance Claim Text: Fine Finish on Metal  
(Version) Key RTB: Brass-coated crimped wire for light-to-medium-duty cleaning applications

Specific RTB1: Removing annealing colour on welded seams, cleaning work on metal and non-ferrous metal surfaces, in grooves and edges

Specific RTB2: For removing rust, roughing, mat sanding, texturing and paint stripping. Brass-coated wires provide corrosion protection

Specific RTB3: Available in different thicknesses. Thicker wires deliver a coarser yet faster finish; thinner wires for finer results

Material: Steel

Material: Softwood

Material: Hardwood

Material: Non-ferrous metals

Product text, Accessories grey: **Wire wheel - crimped wire, brass-coated**

Product text, Accessories grey: **Ideal for** removing annealing colour on welded seams.

Product text, Accessories grey: **Suitable for** light to medium duty cleaning work on small surfaces, in grooves or on edges on metal or non-ferrous metal, such as removing rust, roughing, matt sanding, paint stripping, working on wood.

Product text, Accessories grey: **Advantage:** corrosion protection provided by brass-coated wire.

Scope of delivery:

1 ST Wire Wheel Crimped 75x0.2 mm brass-coated. For rotary drills/drivers |

## PRODUCT DESCRIPTION

The Wire Wheel delivers an extra-fine surface finish. The wheel is fitted with brass-coated crimped wire for light-to-medium-duty cleaning applications on small surfaces. It is ideal for removing annealing colour on welded seams and is also suitable for cleaning work on smaller metal or non-ferrous metal surfaces, grooves or edges. This wire wheel is also suitable for removing rust, roughing, mat sanding, texturing and paint stripping metal and wood. The brass-coated wires on the wheel provide protection against corrosion. Brush wires are available in different thicknesses for variable levels of abrasive needs. Thicker wires are more aggressive, producing a coarser yet faster surface finish, while thinner wires deliver finer, smoother surface results.
