PRODUCT DESCRIPTION

The Wire Wheel provides a good coarse surface finish. It is fitted with knotted wire for heavy-duty cleaning applications on small surfaces. The Wire Wheel is ideal for cleaning welded seams and suitable for cleaning work in stainless steel, aluminium and non-ferrous metal surfaces, on edges or in grooves. Moreover, it is also suitable for removing heavy rust, paint stripping, deslagging, deburring and descaling. Brush wires are available in different thicknesses for variable levels of abrasive needs. Thicker wires are more aggressive, producing a coarser yet faster surface finish, while thinner wires deliver finer, smoother surface results.
