**ROBERT BOSCH POWER TOOLS GMBH
WIRE WHEEL KNOTTED 75X0.5 MM
STEEL. FOR ROTARY DRILLS/DRIVERS**

SKU: 3165140631938

Wire Wheel Knotted 75x0.5 mm Steel. For rotary drills/drivers

Categories: [Accessories for BOSCH professional](#), [Cutting, roughing and brushing](#)

Product Features: Diameter mm: 75

Wire thickness mm: 0,50

Max. speed rpm: 4.500

Brush width mm: 13

Securing: Straight shank

Material: Knotted wire

X-LOCK: no

Benefit HL (short): Coarse Finish on Steel

Performance Claim Text: Coarse Finish on Steel

(Version) Key RTB: Knotted wire for heavy-duty cleaning applications on small surfaces
Specific RTB1: Suited for use in steel, for cleaning welded seams and surfaces, on edges or in grooves at high speeds
Specific RTB2: Also suitable for removing heavy rust, paint stripping, deslagging, deburring and descaling

Specific RTB3: Available in different thicknesses. Thicker wires deliver a coarser yet faster finish; thinner wires for finer results
Material: Steel

Material: Metal pipes and profiles

Product text, Accessories grey: **Wire wheel - knotted wire**

Product text, Accessories grey: **Ideal for** cleaning welded seams.

Product text, Accessories grey: **Suitable for** heavy duty cleaning work on small metal surfaces, in grooves or on edges, such as

removing heavy rust, paint stripping,
deslagging, deburring, descaling.

Scope of delivery:

1 ST Wire Wheel Knotted 75x0.5 mm Steel.

For rotary drills/drivers |

PRODUCT DESCRIPTION

The Wire Wheel provides a good coarse surface finish. It is fitted with knotted wire for heavy-duty cleaning applications on small surfaces. Suited for use in steel, the wire wheel is ideal for cleaning welded seams and suitable for cleaning surfaces, on edges and in grooves at high circumferential speeds. Furthermore, it is also suitable for removing heavy rust, paint stripping, deslagging, deburring and descaling. Brush wires are available in different thicknesses for variable levels of abrasive needs. Thicker wires are more aggressive, producing a coarser yet faster surface finish, while thinner wires deliver finer, smoother surface results.
