X-LOCK Fibre Disc, 115mm, G36, star hole, R780 Best for Metal + Inox. For small angle grinders

---

**Categories:** [Accessories for BOSCH professional](#), [Grinding and polishing](#)

**Product Features:** Disc diameter mm: 115  
Bore diameter mm: 22,23  
Grit: 36  
X-LOCK: yes  
Benefit HL (short): Excellent Removal Rate  
Performance Claim Text: Excellent Removal Rate  
(Version) Key RTB: Self-sharpening Ceramic Grit Technology for high stock removal in coarse grits and consistent surface quality in fine grits  
Specific RTB1: Top size coating with cooling aids ideal for use on Inox as well as mild steel surfaces  
Specific RTB2: Vulcanised fibre backing material provides stability during sanding process  
Specific RTB3: Keyless X-LOCK system for fast and convenient disc changes; suitable for clamping on X-LOCK/standard rubber backing pad  
Material: Steel  
Material: Stainless steel  
SOL Date: 15.02.2019  
Novelty: no  
Novelty until: 15.08.2019

Scope of delivery:

50 ST X-LOCK Fibre Disc, 115mm, G36, star hole, R780 Best for Metal + Inox. For small angle grinders |

## PRODUCT DESCRIPTION

The X-LOCK R780 Best for Metal and Inox Fibre Disc is excellent for removing material quickly when grinding on metal and Inox surfaces. Its self-sharpening Ceramic Grit Technology creates new sharp cutting edges during the sanding process for high stock removal in coarser grits and consistent surface quality in finer grits without disc wear. The disc's top size coating with cooling aids makes it ideal for use on Inox as well as mild steel surfaces. Its backing material is vulcanised fibre, providing stability during sanding process. Changing fibre discs is fast and convenient thanks to the keyless X-LOCK system. Discs are suitable for clamping on an X-Lock or standard rubber backing pad.
