ROBERT BOSCH POWER TOOLS GMBH Y580 SANDING SLEEVE. FOR BURNISHING MACHINES

SKU: 3165140807647

Y580 sanding sleeve. For burnishing machines

Categories: [Accessories for BOSCH professional](#), [Grinding and polishing](#)

Product Features: Grit: 80

Diameter mm: 90

Width mm: 285

Benefit HL (short): Excellent Removal Rate

Performance Claim Text: Excellent Removal Rate

(Version) Key RTB: X-cloth backing provides stability and durability during sanding for impressive finishes in heavy-duty applications

Specific RTB1: Zirconia alumina abrasive grit delivers a brilliant removal rate along with high durability

Specific RTB2: Cooling aid ensures cool grinding with minimal discolouration of the workpiece

Specific RTB3: Electrostatically close-grain distribution and cooling additives for optimal sanding behaviour on metal surfaces

Material: Stainless steel

SOL Date: 01.07.2015

Novelty: no

Scope of delivery:

1 ST Y580 sanding sleeve. For burnishing machines |

PRODUCT DESCRIPTION

The Y580 Best for Inox has an excellent materials removal rate on Inox surfaces. Its stable X-cloth backing provides stability and durability during the sanding process for impressive surface finishes. Furthermore, its zirconia alumina abrasive grit delivers a brilliant removal rate along with high durability. The added cooling aid ensures cool grinding with minimal discolouration of the workpiece. It is intended for general use on difficult metal materials including welds and joints and grinding off rolling skins. It is also suitable for work on stainless steel and titanium as well as non-ferrous metals. It features electrostatically close-grain distribution and cooling additives for optimal sanding behaviour on metal surfaces. The grit is bonded using fully synthetic resin on X-cloth for high work stability and wear resistance with high removal rate in heavy-duty applications.
