RÖHM NC COMPACT CLAMP RKE JAW WIDTH 125 MM STEEL JAW HEIGHT 40 MM

SKU: 4019208244716

NC compact clamp RKE jaw width 125 mm
steel jaw height 40 mm

Categories: [Clamping tools](#), [NC compact clamps](#)

Product Features: Width of jaw: 125 mm
Clamping width: 0-216 mm / 97-312 mm
Height of jaw: 40 mm
Overall length: 463 mm
Clamping force: Approx. 40 kN
Material: Steel
Model: RKE
Brand: RÖHM

Scope of delivery:
1,00 ST NC compact clamp RKE jaw width 125
mm steel jaw height 40 mm |

PRODUCT DESCRIPTION

Mechanical clamping system/mechanical clamping system with force transmission, operated manually (article no. 4124 040 093: Mechanical/hydraulic clamping system)

- Deformation-resistant design for very high clamping accuracy
- For use on machining centres with high quality and production performance
- Drive spindle with clamping force presetting
- Lubricating nipples attached on both sides for the lubrication of all guides subject to wear and tear, and the spindle thread
- Fastening thread M12 for workpiece stop
- Sturdy chip guard prevents chips from entering the inside of the body
- All guides hardened and ground
- Height dimension of base unit/workpiece support -0.02
- Important for twin insert
- Supply with reversible, hardened and ground stepped jaw. Further technical information:
- Type: Model RKE - clamping options on 3 sides
- Can be clamped horizontally, vertically or laterally - base unit made of steel - hardened and ground -

with force transmission
