PRODUCT DESCRIPTION

High freedom of movement even with a short fall distance

- The automatic rope retraction ensures that only the actually required rope length is extended
- The fall-arrest distance always remains as short as possible, both when slinging overhead and when used horizontally
- Tested edge suitability: HK PLUS units are also edge-suitable without the use of an additional shock-absorbing lanyard and are therefore also suitable for horizontal use Use weight 140 kg (up to 10 m) 15 m device = 100 kg Fall indicator: Spring safety hook has integrated colour coding to indicate a previous fall and indicates when a device check is necessary Resistant materials: Plastic housing with the latest technology ensures a long service life HK PLUS with steel rope is available in 3, 4, 5, 6, 8, 10 and 15 m extension lengths. Further technical information:
 - Thickness approx.: 80mm
 - Approx. width: 180mm
