STABILA ROTATING LASER SET LAR 160 600 M 7-PART +/- 5 DEG

SKU: 4005069192419

1,00 ST Rotating laser set LAR 160 600 m 7-part +/- 5 deg

Categories: [Laser technology](#), [Surveying technology](#)

Product Features: Work area: 600 m
Levelling accuracy: +/- 0.1 mm/m
Self-levelling range: +/- 5 °
Laser class: 2
Operating temperature: -10 to +50 °C
Brand: STABILA
Type: 7-part

Scope of delivery:
1,00 ST Rotating laser set LAR 160 600 m 7-part +/- 5 deg |

PRODUCT DESCRIPTION

Fully automatic rotating laser for horizontal and vertical application

- High levelling accuracy +/- 0.1 mm/m
- Dust-protected and waterproof (IP 65)
- Shock-absorbing STABILA soft grip shell protects against impacts
- Easy operation using three control buttons
- Working range with set receiver up to 600 m diameter
- Stable carry case
- Incl. builder's tripod and levelling staff
- Fully automatic, motorised rotating laser - high levelling accuracy +/- 0.1 mm/m, rapid self-levelling within 20 seconds
- Four laser functions for versatile application - horizontal and vertical rotation, plumb function and right angle (90°) in vertical mode
- Protection class IP 65 - dust-protected and waterproof
- Battery drawer - easy replacement, even directly on the tripod
- Large working range with set receiver REC 160 RG - up to 600 m diameter
- Two 5/8" threads integrated into the housing for horizontal and vertical use on a tripod
- Target plate with magnetic mounting and cross-hair

- Laser goggles - improve visibility of the laser beam by 50 %
- Stable carry case for convenient transport and secure storage For bricklaying - creating the calibrating layer. In reinforced concrete construction - concreting foundations or setting up batter boards. In metal construction - aligning and positioning steel girders in hall construction. In gardening and landscaping - creating garden areas, paths and paved areas. In carpentry - installing façade panelling. In civil engineering and pipeline construction - installing pipelines. Further technical information:
 - Protection class: IP 65
 - Operating time: 40h Scope of supply: Rotating laser LAR 160, receiver REC 160 RG, builder's tripod BST-S, levelling staff NL, laser goggles, target plate, carry case, 2 x D 1.5 V batteries, 2 x AA 1.5 V batteries Note on the disposal of batteries and rechargeable batteries As we sell batteries and rechargeable batteries and devices that contain batteries and rechargeable batteries, under the German Battery Act (BattG we are obliged to draw your attention to the following: The symbol of the waste bin with the X through it on batteries and rechargeable batteries means that they must not be disposed on in household waste after consumption. If batteries or rechargeable batteries contain mercury, cadmium or lead, you will find the chemical symbol (Hg, Cd or Pb) under the symbol of the waste bin with the X through it. Every user of batteries or rechargeable batteries is legally obliged to return old batteries and rechargeable batteries. They can be returned, free of charge, to the retailer or another collection point near you. You can obtain the addresses of suitable collection points near you from your local government authority. In the case of batteries that contain more than 0.0005 percent by mass mercury, more than 0.002 percent by mass cadmium or more than 0.004 percent by mass lead, the chemical symbols of the respective harmful substance used are indicated under the waste bin symbol. The chemical symbols have the following meaning: Pb: Battery contains lead Cd: Battery contains cadmium Hg: Battery contains mercury
