TESTBOY CONTINUITY TESTER TB 20 PLUS UP TO 300 V CAT II 300 V

SKU: 4028532200220

Continuity tester TB 20 Plus up to 300 V CAT II 300 V

Categories: [Measuring and testers for electrical installation](#), [Voltage and continuity tester](#)

Product Features: Nominal voltage range:

Up to 300 V

Brand: TESTBOY

Measurement category: CAT II 300 V

[Datasheet](#)

Scope of delivery:

1,00 ST Continuity tester TB 20 Plus up to 300 V CAT II 300 V |

PRODUCT DESCRIPTION

Detects alternating voltage through the insulation thanks to the non-contact voltage sensor

- Installed current alarm warns of life-threatening voltage
- Enables single-pole phase search
- Torch function
- Continuity testing: Optical 0-20 / acoustic 0-250
- Test voltage: 4.5 V
- Test current: Optical approx. 10 mA / acoustic approx. 2 mA
- External voltage protection: Up to 300 V
- Measurement category: CAT II 300 V Further technical information:
- Continuity testing: LED/buzzer
- Subject to audit: Yes Scope of supply : Continuity tester, two measuring cables, batteries (3x 1.5 Mignon/AA/LR6) For replacement batteries, see article no. 4000 901 811 Note on the disposal of batteries and rechargeable batteries As we sell batteries and rechargeable batteries and devices that contain batteries and rechargeable batteries, under the German Battery Act (BattG we are obliged to draw your attention to the following: The symbol of the waste bin with the X through it on batteries and rechargeable batteries means that they must not be disposed on in household waste after consumption. If batteries or rechargeable batteries contain mercury, cadmium or lead, you will find the chemical symbol (Hg, Cd or Pb) under the symbol of the waste bin with the X through it. Every user of batteries or

rechargeable batteries is legally obliged to return old batteries and rechargeable batteries. They can be returned, free of charge, to the retailer or another collection point near you. You can obtain the addresses of suitable collection points near you from your local government authority. In the case of batteries that contain more than 0.0005 percent by mass mercury, more than 0.002 percent by mass cadmium or more than 0.004 percent by mass lead, the chemical symbols of the respective harmful substance used are indicated under the waste bin symbol. The chemical symbols have the following meaning: Pb: Battery contains lead Cd: Battery contains cadmium Hg: Battery contains mercury

PRODUCT DATASHEET LEGAL NOTE

Please note that the information on this datasheet is provided without warranty and is intended only as non-binding information about the product. Any liability for damages or losses that may arise from the use of this information is excluded. We therefore recommend that you verify the information on this datasheet with other sources before making any decisions based on this information. Additional information about the product can be found on our website.
