## TESTBOY VOLTAGE TESTER TB 113 12-1000 V AC NON-CONTACT

**SKU:** 4028532101138

Voltage tester TB 113 12-1000 V AC non-contact

**Categories:** [Measuring and testers for electrical installation](#), [Voltage and continuity tester](#)

**Product Features:** Model: TB 113  
Display: Optical, acoustic  
Measurement category: CAT III 1000 V  
Nominal voltage range: 12-1000  
Working principle: Contactless  
Brand: TESTBOY

[Datasheet](#)

Scope of delivery:  
1,00 ST Voltage tester TB 113 12-1000 V AC non-contact |

## PRODUCT DESCRIPTION

Detection of alternating voltages without current flow

- Location of cable bridges and defective fuses
- Verification of defective switches, sockets, transformers (e.g. low-voltage lighting systems and string lights)
- Detection of phase conductors in single-phase and three-phase networks
- Tests the function of circuit breakers
- Detects faulty in-line switches and live cables in distribution boxes
- Measuring range selectable (12-1000 Volt / 110-1000 Volt)
- LED torch function
- Housing made of impact-resistant and break-proof ABS plastic
- Overvoltage category CAT III 1000 V
- Display: Optical + acoustic Further technical information:
- Subject to audit: Yes Supplied with batteries (2 x type AAA for replacement batteries see article no. 4000 901 810 Note on the disposal of batteries and rechargeable batteries As we sell batteries and rechargeable batteries and devices that contain batteries and rechargeable batteries, under the German Battery Act (BattG we are obliged to draw your attention to the following: The symbol of the waste bin

with the X through it on batteries and rechargeable batteries means that they must not be disposed on in household waste after consumption. If batteries or rechargeable batteries contain mercury, cadmium or lead, you will find the chemical symbol (Hg, Cd or Pb) under the symbol of the waste bin with the X through it. Every user of batteries or rechargeable batteries is legally obliged to return old batteries and rechargeable batteries. They can be returned, free of charge, to the retailer or another collection point near you. You can obtain the addresses of suitable collection points near you from your local government authority. In the case of batteries that contain more than 0.0005 percent by mass mercury, more than 0.002 percent by mass cadmium or more than 0.004 percent by mass lead, the chemical symbols of the respective harmful substance used are indicated under the waste bin symbol. The chemical symbols have the following meaning: Pb: Battery contains lead Cd: Battery contains cadmium Hg: Battery contains mercury

#### PRODUCT DATASHEET LEGAL NOTE

Please note that the information on this datasheet is provided without warranty and is intended only as non-binding information about the product. Any liability for damages or losses that may arise from the use of this information is excluded. We therefore recommend that you verify the information on this datasheet with other sources before making any decisions based on this information. Additional information about the product can be found on our website.
