WEIDMÜLLER VOLTAGE/CONTINUITY TESTER VT COMBI PRO 6-690 V AC/DC CAT IV 400V/ CAT III 690 V

SKU: 4032248405749

Voltage/continuity tester VT Combi Pro 6-690 V AC/DC CAT IV 400V/ CAT III 690 V

Categories: Measuring and testers for electrical installation, Voltage and continuity tester

Product Features: Nominal voltage range: 6-690 V AC/DC
Brand: WEIDMÜLLER
Measurement category: CAT IV 400V/ CAT III 690 V
Model: 480076

Scope of delivery:
1,00 ST Voltage/continuity tester VT Combi Pro 6-690 V AC/DC CAT IV 400V/ CAT III 690 V
|

PRODUCT DESCRIPTION

Electronic
- With switchable load for tripping FI
- Suppression of inductive and capacitive blind voltages and for discharging capacitors
- With phase sequence indication
- Clear display of left and right phase sequence
- Effective measuring range from 6-690 V AC/DC
- Phase and polarity test
- Test probe light
- Offers the possibility of personalised marking by means of a snap-on marker Technical data: Display: LED Display range for voltages: 6 V, 12 V, 24 V, 50 V, 120 V, 230 V, 400 V, 690 V Polarity (+/- continuity testing, audible beep, semiconductor test, unipolar phase testing, single-hand test, probe illumination, phase sequence indication, switchable load, 30 mA fault current triggering via push-button Measurement category:CAT IV 600 V, CAT III 690 V Power supply: 2 x 1.5 V AAA Protection class: IP65 Further technical information:
- Working principle: Two-pole

Copyright © 2023 Actik Tools All rights reserved

- Protection class: IP65
- Continuity testing: LED/buzzer
- Subject to audit: Yes Supplied with batteries (2 x type AAA for replacement batteries see article no. 4000 901 810 Note on the disposal of batteries and rechargeable batteries As we sell batteries and rechargeable batteries and devices that contain batteries and rechargeable batteries, under the German Battery Act (BattG we are obliged to draw your attention to the following: The symbol of the waste bin with the X through it on batteries and rechargeable batteries means that they must not be disposed on in household waste after consumption. If batteries or rechargeable batteries contain mercury, cadmium or lead, you will find the chemical symbol (Hg, Cd or Pb) under the symbol of the waste bin with the X through it. Every user of batteries or rechargeable batteries is legally obliged to return old batteries and rechargeable batteries. They can be returned, free of charge, to the retailer or another collection point near you. You can obtain the addresses of suitable collection points near you from your local government authority. In the case of batteries that contain more than 0.0005 percent by mass mercury, more than 0.002 percent by mass cadmium or more than 0.004 percent by mass lead, the chemical symbols of the respective harmful substance used are indicated under the waste bin symbol. The chemical symbols have the following meaning: Pb: Battery contains lead Cd: Battery contains cadmium Hg: Battery contains mercury
