## WEIDMÜLLER VOLTAGE/CONTINUITY TESTER VT DIGI PRO 1-1000 V AC/DC CAT IV 400V/ CAT III 690 V

SKU: 4032248405756

Voltage/continuity tester VT Digi Pro 1-1000 V AC/DC CAT IV 400V/ CAT III 690 V

**Categories:** [Measuring and testers for electrical installation](#), [Voltage and continuity tester](#)

**Product Features:** Nominal voltage range: 1-1000 V AC/DC  
Brand: WEIDMÜLLER  
Measurement category: CAT IV 400V/ CAT III 690 V  
Model: 480073

Scope of delivery:  
1,00 ST Voltage/continuity tester VT Digi Pro 1-1000 V AC/DC CAT IV 400V/ CAT III 690 V |

## PRODUCT DESCRIPTION

With digital display

- With large four-digit LCD display and automatic backlighting
  - Large measuring range from 1-1000 V AC/DC
  - Phase sequence indicator
  - Clear display of left and right phase sequence
  - With switchable load for tripping FI
  - Suppression of inductive and capacitive blind voltages and for discharging capacitors
- Technical data:  
Display: Digital LCD Display range for voltages: 1-1000 V AC/DC Voltage display: 4-digit Polarity (+/-)  
continuity testing, acoustic signal, semiconductor test, single-pole phase test, single-hand testing, probe illumination, HOLD function, phase sequence indicator, switchable load, 30 mA fault current triggering via push-button, resistance measurement, frequency measurement Measurement category: CAT IV 600 V, CAT III 1000 V Power supply: 2 x 1.5 V AAA Protection class: IP65 Further technical information:
- Working principle: Two-pole
  - Protection class: IP65
  - Continuity testing: LED/buzzer
  - Subject to audit: Yes Batteries included (2 x type AAA) and synthetic leather bag, replacement batteries

see article no. 4000 901 810 Note on the disposal of batteries and rechargeable batteries As we sell batteries and rechargeable batteries and devices that contain batteries and rechargeable batteries, under the German Battery Act (BattG we are obliged to draw your attention to the following: The symbol of the waste bin with the X through it on batteries and rechargeable batteries means that they must not be disposed on in household waste after consumption. If batteries or rechargeable batteries contain mercury, cadmium or lead, you will find the chemical symbol (Hg, Cd or Pb) under the symbol of the waste bin with the X through it. Every user of batteries or rechargeable batteries is legally obliged to return old batteries and rechargeable batteries. They can be returned, free of charge, to the retailer or another collection point near you. You can obtain the addresses of suitable collection points near you from your local government authority. In the case of batteries that contain more than 0.0005 percent by mass mercury, more than 0.002 percent by mass cadmium or more than 0.004 percent by mass lead, the chemical symbols of the respective harmful substance used are indicated under the waste bin symbol. The chemical symbols have the following meaning: Pb: Battery contains lead Cd: Battery contains cadmium Hg: Battery contains mercury
